

Adsets Flow with Campaign Objective

Overview: How Campaign Objective Effects on Adsets						
Objective	Performance Goal	Conversion Location	Conversion Event	Datasets (pixel id)	FB page	Conversion Location
Awareness	Yes	No	No	No	Yes	
Traffic	Depen...	Yes	Depen...	Depen...	Depen...	
Engagement	Depen...	Yes	Depen...	Depen...	Depen...	
Leads	Depen...	Yes	Depen...	Depen...	Depen...	
App	Depen...	Restri...	Depen...	Depen...	Depen...	
Sales	Yes	Yes	Depen...	Depen...	Depen...	

How Conversion Location Effects on Based on Campaign Objectives:

- Conversion Events
- Performance Goals
- Datasets (pixel id)
- Facebook Page (page id)
- App store
- Conversion Event Type

Objective: **Sales**

List of Conversion locations:

1. App (Drive sales and conversions on your app.)
2. Website and app (Drive sales and conversions on your website or app.)
3. Message destinations (Drive sales and conversions through Messenger, Instagram and WhatsApp.)
4. Calls (Drive sales and conversions through phone calls.)
5. Website and calls (Drive sales and conversions on your website and through calls.)
6. Website (Drive sales and conversions on your website.)

Conversion Location “**Website**”

Performance goals:

Conversion goals

- Maximize value of conversions (We'll try to show your ads to the people most likely to generate higher value for your business.)
- Maximize number of conversions (We'll try to show your ads to the people most likely to take a specific action on your website).

Other goals

- Maximize number of landing page views (We'll try to show your ads to the people most likely to view the website or Instant Experience linked in your ad.)
- Maximize number of link clicks (We'll try to show your ads to the people most likely to click on them.)
- Maximize daily unique reach (We'll try to show your ads to as many people as possible.)
- Maximize number of impressions (We'll try to show your ads to people as many times as possible.)

Dataset:

List of Pixel Ids from Facebook.

Conversion Event: (**not in Objective Leads, Object Engagement**)

Active events

- View content

Inactive events

- Complete registration
- Initiate checkout
- Lead
- Add payment info

- Add to cart
- Add to wishlist
- Donate
- Purchase
- Search
- Start trial
- Subscribe
- Contact
- Customize product
- Find location
- Schedule
- Submit application

Conversion Location “App”

Performance goals:

Lead goals

- Maximize number of app events (We'll try to show your ads to the most likely to take a specific action in your app at least once.)

Other goals

- Maximize number of link clicks (We'll try to show your ads to the people most likely to click on them.)
- Maximize daily unique reach (We'll try to show your ads to as many people as possible.)

Mobile app store:

- Google Play
- App Store
- App Store for iPad
- Windows Store
- Facebook Canvas
- Amazon Appstore
- Games
- Meta Quest App Store

App

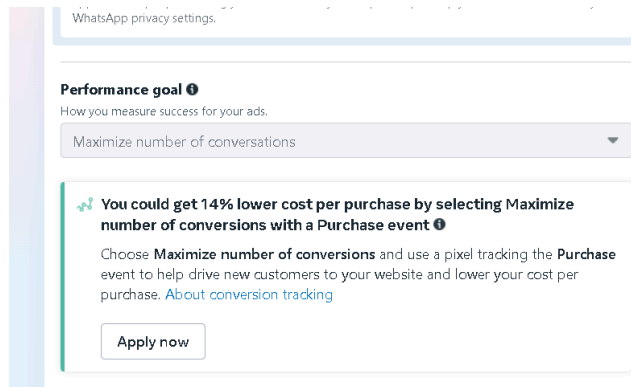

Choose the app you want to advertise. [use facebook api to fetch app(not sure about the API)]

Conversion Event: (No conversion Events)

Conversion Location “Message destinations”

Performance goals:

You can't select performance goal with selected objective and conversion location

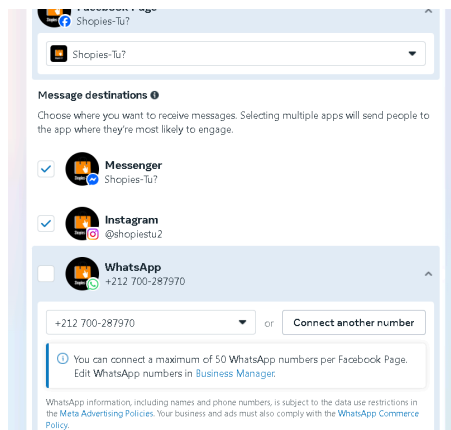

Facebook Page:

List of page ids from Facebook.

Message destinations (not for now) OPTIONAL

Choose where you want to receive messages. Selecting multiple apps will send people to the app where they're most likely to engage.

Conversion Event: (No conversion Events)

Conversion Location “Calls”

Performance goals:

- Maximize number of calls

Facebook Page:

List of page ids from Facebook.

Conversion Event: (No conversion Events)

Conversion Location “Website and Calls”

Performance goals:

- Maximize number of conversions (We'll try to show your ads to the people most likely to take a specific action on your website).

Dataset:

List of Pixel Ids from Facebook.

Conversion Event:

- Purchase

Conversion Location “Website and App”

Performance goals:

- Maximize value of conversions (We'll try to show your ads to the people most likely to generate higher value for your business.)
- Maximize number of conversions (We'll try to show your ads to the people most likely to take a specific action on your website).

☒ Website and app
 Drive sales and conversions on your website or app.

☐ Message destinations
 Drive sales and conversions through Messenger, Instagram and WhatsApp.

☐ Calls
 Drive sales and conversions through phone calls.

☐ Website and calls
 Drive sales and conversions on your website and through calls.

Performance goal ⓘ
 How you measure success for your ads.
 Maximize number of conversions

Event
☐ A website and app event is required. Build a new event for the conversion you want to measure. [Learn more](#)

Build event

Build event for website and app X
 From an existing event, build a new one that triggers when a customer takes an action on a website or mobile app.

Name	Description - Optional
How you'll identify it 0/50	Give details for context 0/100

Website

Performance goals:

- Maximize number of link clicks

Facebook Page:

List of page ids from Facebook.

The screenshot shows the 'Message destinations' settings for a Facebook Page named 'Ecom Facile Académie'. At the top, there's a header with the page name and a pencil icon for editing. Below this, the section is titled 'Message destinations' with a help icon. A descriptive text states: 'Choose where you want to receive messages. Selecting multiple apps will send people to the app where they're most likely to engage.' There are three options listed, each with a checkbox and a checkmark:

- Messenger**: Ecom Facile Académie
- Instagram**: @ecom_facile_academie
- WhatsApp**: +212 677-147499

Below the WhatsApp option, there is a dropdown menu showing '+212 677-147499' and a button labeled 'Connect another number'. At the bottom, a blue information bar contains a note: 'You can connect a maximum of 50 WhatsApp numbers per Facebook Page. Edit WhatsApp numbers in [Business Manager](#) and number connections in [Page settings](#).'

Objective: **Traffic**

List of Conversion locations:

1. Website (Send traffic to your website.)
2. App (Send traffic to your app.)
3. Message destinations (Send traffic to Messenger, Instagram and WhatsApp.)
4. Instagram or Facebook (Send traffic to an Instagram profile, Facebook Page or both.)
5. Calls (Get people to call your business.)

Conversion Location “**Website**”

Performance goals:

Traffic goals

- Maximize number of landing page views (We'll try to show your ads to the people most likely to view the website or Instant Experience linked in your ad.)
- Maximize number of link clicks (We'll try to show your ads to the people most likely to click on them.)

Other goals

- Maximize daily unique reach (We'll try to show your ads to as many people as possible.)
- Maximize number of impressions (We'll try to show your ads to people as many times as possible.)
- Maximize number of conversions (We'll try to show your ads to the people most likely to take a specific action on your website).
- Maximize value of conversions (We'll try to show your ads to the people most likely to generate higher value for your business.)
